

1. Applicant's arguments filed 7/15/10 and applicant's amendment filed 5/3/10 have been considered.
2. The examiner acknowledges the allowable nature of the claims as amended 5/3/10, and acknowledges that the wording changes in claims 93-95 were essential to clarity of the invention. However, these amendments are more than just typographical in nature and thus require a new oath/declaration.
3. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 22-32,41-43,46-55,93-102 rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.
